

Subordinate reporting

4 Screens

Hardik
S.

A mobile app prototype for a 'Reporting' screen. The screen is enclosed in a rounded rectangle with a grey border, representing a smartphone. At the top, there is a dark grey status bar with icons for Wi-Fi, cellular signal, battery, and the time '4.00'. Below the status bar is a white header bar with a back arrow icon on the left, the title 'Reporting' in the center, and a green circular confirmation button with a white checkmark on the right. The main content area is divided into several sections by horizontal lines. The first section is labeled 'Promoter Name 1' and contains a text input field with the placeholder 'Today's Date | Location Name'. The second section is labeled 'Is the user present?' and features a dropdown menu with 'Yes' selected. The third section is labeled 'Other activities performed' and features a dropdown menu with 'Select Type' selected. The fourth section is labeled 'Sales made for the day' and features a text input field with a 'Text Input' placeholder. The bottom of the screen shows a white navigation bar with three icons: a back arrow, a circle, and a square. The entire prototype is set against a light grey background.

Reporting
